All residents should take precautions to protect their health from the spread of COVID-19. Individuals with the following conditions are at higher risk of being affected from COVID-19.

People at Increased Risk for Severe Illness	Might be at Increased Risk for Severe Illness
<ul style="list-style-type: none"><li>• Older Adults</li><li>• Cancer</li><li>• Chronic kidney disease</li><li>• Chronic obstructive pulmonary disease</li><li>• Heart conditions</li><li>• Immunocompromised state</li><li>• Obesity and severe obesity</li><li>• Pregnancy</li><li>• Sickle cell disease</li><li>• Smoking</li><li>• Type 2 diabetes mellitus</li></ul>	<ul style="list-style-type: none"><li>• Asthma</li><li>• Cerebrovascular disease</li><li>• Cystic fibrosis</li><li>• Hypertension or high blood pressure</li><li>• Immunocompromised state</li><li>• Neurologic conditions, such as dementia</li><li>• Liver disease</li><li>• Overweight</li><li>• Pulmonary fibrosis</li><li>• Thalassemia</li><li>• Type 1 diabetes mellitus</li></ul>

All residents should practice health and safety measures:

- Get vaccinated.
- Wear a mask in the public.
- Avoid close contact with people who are sick.

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol.
- Clean and disinfect frequently touched surfaces daily.
- Avoid touching your face, nose, and eyes with unwashed hands.
- Clean and disinfect your vehicle, home, workspace and other common areas on a regular basis.
- Social distance - keep 6 feet between yourself and others.
- Limit gatherings with individuals outside your immediate household.
